

## Linguistic relativism

Dear students

I have been occupied with lots of things and thus I have not been able to post the last topic for L-8.

I know that the exam is very near, thus, I am giving you the link of an article which is the best to understand the notion.

I am sure you would understand my problem and won't be too much annoyed with me 😊..

Moreover, I would try to put the post before the exam, but in case I couldn't, please do read this article:
